

My name is Robin DeVault, I have been serving PTA for over 22 years at the local, county, and state levels. My journey has gone from elementary, middle, high school, and college. My children have experienced traditional, charter, virtual, and magnet school programs, all of which bring new ideas and information. It has been my mission to help children, families, and communities during their time in their neighborhood schools. I enjoy sharing my training, information, or experience, anything that helps children succeed.
